From the BOSTON GAZETTE, of *Nov.* 2.

Save your money, and you ſave your country.

At a meeting of the freeholders and other inhabitants of the town of Boſton, legally aſſembled at Faneuil-Hall, on Wedneſday the 28th of October, 1767.

The hon. JAMES OTIS, *Eſq; Moderator.*

A written ADDRESS to the inhabitants ſubſcribed *Philo Patriæ*, recommending œconomy and manufactures, was, by their order, read.

THE town then took into conſideration the petition of a number of inhabitants, "That ſome effectual meaſures might be agreed upon to promote induſtry, œconomy and manufactures; thereby to prevent the unneceſſary importation of European commodities, which threaten the country with poverty and ruin;" Whereupon in a very large and full meeting, the following votes and reſolutions were paſſed unanimouſly.

Whereas the exceſſive uſe of foreign ſuperfluities is the chief cauſe of the preſent diſtreſſed ſtate of this town, as it is thereby drained of its money; which misfortune is likely to be increaſed by means of the late additional burthens and impoſitions on the trade of the province, which threaten the country with poverty and ruin.

Therefore, VOTED, That this town will take all prudent and legal meaſures to encourage the produce and manufactures of this province, and to leſſen the uſe of ſuperfluities, and particularly the following enumerated articles imported from abroad, viz. Loaf ſugar, cordage, anchors, coaches, chaiſes, and carriages of all ſorts, horſe furniture, men and womens hats, men and womens apparel ready made, houſe furniture, gloves, mens and womens ſhoes, ſole leather, ſheathing and deck nails, gold and ſilver and thread lace of all ſorts, gold and ſilver buttons, wrought plate of all ſorts, diamond, ſtone and paſte ware, ſnuff, muſtard, clocks and watches, ſilverſmiths and jewellers ware, broad cloths that coſt above 10 s. per yard, muffs, furs and tippets, and all ſorts of millenary ware, ſtarch, women and childrens ſtays, fire engines, china ware, ſilk and cotton velvets, gauze, pewterers hollow ware, linſeed oil, glue, lawns, cambricks, ſilks of all kinds for garments, malt liquors and cheeſe.—And that a ſubſcription for this end be, and hereby is, recommended to the ſeveral inhabitants and houſholders of the town; and that John Rowe, Eſq; Mr. William Greenleaf, Melatiah Bourne, Eſq; Mr. Samuel Auſtin, Mr. Edward Payne, Mr. Edmund Quincy, tertius, John Ruddock, Eſq; Jonathan Williams, Eſq; Joſhua Henshaw, Eſq; Mr. Henderſon Inches, Mr. Solomon Davis, Joſhua Winſlow, Eſq; and Thomas Cuſhing, Eſq; be a committee to prepare a form of ſubſcription, to report the ſame as ſoon as poſſible; and alſo to procure ſubſcriptions to the ſame.

And whereas it is the opinion of this town, that divers new manufactures may be ſet up in America, to its great advantage, and ſome others carried to a greater extent, particularly thoſe of glaſs and paper.

Therefore, voted, That this town will, by all prudent ways and means, encourage the uſe and conſumption of glaſs and paper, made in any of the Britiſh American colonies; and more eſpecially in this province.

[Then the meeting adjourned till three o' clock in the afternoon.]

Three o' clock poſt meridiem.

THE committee appointed in the forenoon to prepare a form of ſubſcription, report as follows.

Whereas this province labours under a heavy debt, incurred in the courſe of the late war; and the inhabitants, by this means, muſt be, for ſome time, ſubject to very burthenſome taxes:—And as our trade has, for ſome years, been on the decline, and is now particularly under great embarraſſments, and burthened with heavy impoſitions, our medium very ſcarce, and the balance of trade greatly againſt this country:

We therefore, the ſubſcribers, being ſenſible that it is abſolutely neceſſary, in order to exert us out of the diſtreſſes occaſioned by the ſcarcity of money, to promote induſtry, œconomy and manufactures among ourſelves, and by this means prevent the unneceſſary importation of European commodities, the exceſſive uſe of which threatens the country with poverty and ruin—Do promiſe and engage, to and with each other, that we will encourage the uſe and conſumption of all articles manufactured in any of the Britiſh American colonies, and more eſpecially in this province; and that we will not, from and after the firſt of December next enſuing, purchaſe any of the following articles, imported from abroad, viz. loaf ſugar, and all other articles enumerated above;——

And we further agree ſtrictly to adhere to the late regulation reſpecting funerals, and will not uſe any gloves but what are manufactured here, nor procure any new garments upon ſuch an occaſion, but what ſhall be abſolutely neceſſary.

The above report having been conſidered, the queſtion was put, whether the ſame ſhall be accepted? voted unanimouſly in the affirmative.—And that the ſaid committee be deſired to uſe their beſt endeavours to get the ſubſcription papers filled up as ſoon as may be. Alſo, voted unanimouſly, that the foregoing vote and form of ſubſcription relative to the enumerated articles, be immediately publiſhed; and that the ſelectmen be directed to diſtribute a proper number of them among the freeholders of this town; and to forward a copy of the ſame to the ſelect-men of every town in the province; as alſo to the principal city or town officers of the chief towns in the ſeveral colonies on the continent, as they may think proper.

That clauſe in the warrant, "That the mind and reſolution of this town may be taken with reſpect to the expediency of an humble requeſt to his excellency the governor, that he will convene the general aſſembly as ſoon as may be," was read and conſidered; Whereupon, voted unanimouſly, That the repreſentatives of the town having already made humble application to his excellency the governor for the purpoſe above mentioned, the town do approve of their conduct therein; hereby declaring their ſenſe of the importance of the meaſure, and expreſſing their hopes that his excellency will be pleaſed to favour it, by convening the general aſſembly as ſoon as may be.

The clauſe in the warrant, viz. "To conſider of ſome meaſures for employing the poor of the town of Boſton, by reviving the linen manufacture, and in ſuch other ways as ſhall be thought moſt beneficial," was read---Whereupon Voted, that John Barret, Eſq; Mr. Edward Payne, Eſq; Mr. Henderſon Inches, Malatiah Bourne, Eſq; Jonathan Williams, Eſq; Ezekiel Goldthwait, Eſq; be a committee for the purpoſe aforeſaid, to report as ſoon as may be.——

Upon a motion made, voted, that the town will take all proper meaſures, by keeping in their children and ſervants, and other ways, to prevent ſuch diſturbances as have ſometimes happened on or about the 5th day of November.

Attеſt,
WILLIAM COOPER, *Town Clerk.*

Then the meeting was adjourned to the 20th day of November inſtant.

At the above meeting ſeveral ſamples of ſtarch, called Poland ſtarch, and of the common ſort of ſtarch: Hair powder of the beſt ſort, glue, and ſnuff like Kippen's, ſo called, all manufactured in this town by Meſſrs. Hewes, Baker and Gilliſpie, were produced in town meeting, and much approved of.

Mr. John Baker, who manufactures the Poland ſtarch, ſo called, being preſent, declared his readineſs to contract with the inhabitants for 200 barrels at the prime coſt of that article in London.

Mr. Gilliſpie, the manufacturer of Scotch ſnuff, ſo called, offered to furniſh the inhabitants with what may be wanted, at the firſt coſt of that article in North-Britain.

The town were alſo informed that our paper manufacturers had given aſſurance, that in caſe they can be ſupplied with the neceſſary materials, uſually burnt or thrown away in our great towns, they could ſupply the province with whatſoever ſorts of paper they have occaſion for, in ſufficient quantity, with ſome left for the other colonies.

It is with pleaſure we can inform our readers, that within the laſt year, thirty thouſand yards of cloth were manufactured in one ſmall country town in this province; ſo far does the ſpirit of induſtry begin to prevail among us, and we hope will in this way, aſſiſted by frugality and Oeconomy, daily afford us a more promiſing proſpect of our emerging from the preſent alarming ſcarcity of money, and conſequent ſtagnation of trade; and from the almoſt univerſally increaſing complaints of debt and poverty.

We are confidently told, that in the town of Lynn upwards of forty thouſand pair of womens ſhoes have been made in one year, equal in goodneſs to any imported from abroad—It is thought that in a few years they will be ſupplied with clothing and other ſtuffs manufactured in this province.

We are aſſured from good authority, that many of the ladies in this town have ſaid, that in the liſt of articles not to be purchaſed, TEA ought by no means to have been omitted; and that they are reſolved to omit the uſe of it for the future.

It is judged that the ſpirit of frugality and Oeconomy prevails in our country towns, as the demand for European ſuperfluities is of late greatly diminiſhed.

In a large circle of very agreeable ladies in this town, it was unanimouſly agreed to lay aſide the uſe of ribbons, &c. &c. &c. for which there has been ſo great a reſort to milliners in times paſt—It is hoped that this reſolution will be followed by others of the ſex throughout the province——*How agreeable will they appear in their native beauty, ſtript of all ornaments, from the prevailing motive of love to their country.*

We muſt after all our efforts depend greatly upon the female ſex for the introduction of Oeconomy among us: And thoſe who have the pleaſure of an acquaintance with them, aſſure us that their utmoſt aid will not be wanting.

ANNAPOLIS, *October* 29.

Extract of a letter from a gentleman in London, dated Auguſt 19, to his friend in this province.

"It is the general opinion of thinking people here, "that a great number of *Paper-mills* will very "ſoon be erected in *America*, in conſequence of the la "*parliament* is to encourage the *manufac*"*ture* of that article in the *Colonies*.

Newport, November 2. We hear that a gentleman in this colony, remarkable for induſtry, manufactured in his own family, within the year paſt, ſix hundred and fifty yards of cloth, of different kinds.

Extract of a letter from a gentleman in London, to one of the ſociety for manufactures in New-York, Auguſt 26, 1767.

"I received a piece of linen from the ſociety; it being brown, I deſired my linen draper to get it bleached; he told me, that during 45 years that he had been a draper, he had never ſeen ſuch an excellent piece of linen; that as he had got a fortune out of North America, it gave him pleaſure to hear it was manufactured there, but as a linen draper he was very ſorry for it.—It has been ſix weeks on the graſs, and the bleacher ſays it muſt be in his hands ſix more, before it will be well whitened; for that he never ſaw a piece equal to it, and deſired to know of what fabrick it was. Such are the praiſes of your manufactures! I hope ſoon to ſee the day, that we ſhall import great quantities of linen from New-York, into this kingdom, as well as from Ireland and Scotland, and that Germany ſhall be excluded."

Boſton, November 5. So ſtrong is the diſpoſition of the inhabitants of this town to take off the manufactures that come from the country towns, eſpecially womens and childrens winter apparel, that nothing is wanting but an advertiſement where they may be had in town, which will be taken in, and publiſhed by the printers of this paper gratis.

BOSTON, *November* 9.

We hear the ſubſcription paper for increaſing our own manufactures, and laying aſide certain enumerated articles, fills up ſurpriſingly; and that ſaid meaſure is ſo well approved of in the country, that town meetings are now calling, in order to agree upon ſimilar meaſures. The public papers and private advices acquaint us, that Rhode Iſland, Connecticut, New-York, New-Jerſey, &c. &c. are ſteadily purſuing meaſures for leſſening their foreign imports, by encouraging frugality, and their own manufactures.—It cannot be diſputed that the colonies are greatly in debt, ſo that whatever is drawn from us by way of duty, muſt be thoſe monies which would go to Great-Britain, as pay, and to procure more goods. *A neceſſity is laid upon us*, to be induſtrious and frugal, *and woe be unto us*, if we are extravagant.

Saturday laſt we were favoured with a ſight of the China tea plant in foliage, being cultivated by captain Hatſiſon of this town; ſome of the dried leaves being by Mrs. Hatſiſon preſented with the ſhrub, in flavour exactly reſembling the common green tea.—The ſhrub is annual, ſowing its own ſeed in this climate, and wants nothing but the method of cure to render it uſeful thro' the continent.

The publick were told in our papers of November and December laſt, that G——r H——d and others were recommending ſchemes for raiſing a revenue in America, to ſupport, independent of the people, a civil and military eſtabliſhment, and that J——s B——ff——l and C——s P——x——n were going home to forward the execution. We are heartily ſorry to find that their repreſentations have had ſuch effect; duties are now to be paid in the colonies on above one hundred articles of our imports, and if theſe are eſtabliſhed we may fear that every future ſeſſion of P——t will encreaſe the number until our property is wholly ſwallowed up. Swarms of new officers are flying over to us to faſten themſelves upon the ſpoils of trade, and g——r B——d and his junto are exulting at the news of new appointments and encreaſed ſalaries. The J——ges of the ſuperior court are now by act of parliament inveſted with all the powers of the court of King's Bench, Exchequer, &c. a power ſuperior to any one court in Europe, although they are thouſands of miles diſtant from the throne, and hold their commiſſions not during good behaviour, but at the pleaſure of their ſuperiors, and this at a period when Britons have been ſo aware of the importance of an unbiaſſed Bench of Judges, that, notwithſtanding theirs were appointed during good behaviour, an act of parliament was obtained in Mr. Pitt's adminiſtration, providing that even the demiſe of a king ſhould not vacate their commiſſions. The famous Mr. C——e, who came in Capt. Freeman, was harbinger to his friend C——s P——x——n who arrived here laſt week in Capt. Watt, with a large number of the new-faſhioned officers. All the accounts by theſe veſſels agree, that the colonies have been groſsly miſrepreſented by ſome who correſpond with men in power, who for their private advantage had recommended meaſures that may entirely deſtroy the hold our mother country has hitherto had in the affections of a loyal and brave people, a hold ſuperior to what could be obtained by 50 regiments. At this alarming criſis the friends of Britain and the colonies were pleaſed to hear that our repreſentatives had applied to G——r B——d, humbly praying that the general aſſembly might be convened as ſoon as poſſible; but though this ſtep was unanimouſly approved of by their conſtituents at a late meeting, who alſo expreſſed their deſire to his E——y, that he would be pleaſed to favour the application by convening the court immediately, we are as much grieved as aſtoniſhed to hear, that, even without the advice of C——l, he has further prorogued the court to the 30th of December next, and ſo prevented a diſtreſſed though loyal people from throwing themſelves in ſeaſon at the feet of their dread ſovereign, with their humble ſupplications, that he would yet be pleaſed to ſay unto them—Live.

Boſton, November 16. We hear the commiſſioners of his majeſty's cuſtoms, &c. lately arrived here, were ſworn into office before his excellency the governor on Saturday laſt.

November 23. The inhabitants of this metropolis ſtill perſevere in their reſolution to diſcourage the uſe of foreign ſuperfluities as the only means of ſaving the country from impending ruin.—The inhabitants met by adjournment on Friday laſt: The gentlemen appointed to obtain ſubſcriptions reported, and it appeared that great part of the freeholders had ſubſcribed.—The ſubſcription rolls are daily filling up at the town clerk's office, where they were ordered to be lodged for that purpoſe.—At the ſame meeting it was voted to give their repreſentatives inſtructions reſpecting their conduct at this criſis.

Since our laſt the towns of Charles Town and Dedham, have unanimouſly entered into the new meaſures, reſpecting œconomy and manufactures, and their ſubſcription rolls are filling up faſt.

New York, November 19. Some time laſt week arrived at Sandy-Hook, his majeſty's ſloop Viper. A report prevails, that ſhe is ſtationed here for the winter.

Extract of a letter from London, dated September 15.—"The king and council have adopted the ſcheme of ſettling a colony on the Ohio; and the lords of trade are forming the plan:—The French have eſtabliſhed two free ports in the Weſt-Indies, St. Lucia and St. Nicholas, which occaſions much ſpeculation here in England, as it is thought it will be the means of introducing many French manufactures into the Engliſh colonies; for the arret that eſtabliſhes thoſe free ports, allows a free exportation of all European manufactures, as well as of rum and melaſſes."

Extract of a letter from a gentleman at New York, to his friend in Boſton, dated November 5, 1767.

"People in Boſton form much more uneaſy for the inhabitants of this province than they are for themſelves, who are perfectly contented, as are thoſe of Penſylvania:—What will be the conſequence of the many inflamatory pieces publiſhed in the Boſton papers I know not, but am perſwaded that no good end can be anſwered by them,

CHARLES-TOWN, December 14.

THE Anna-Theresa packet-boat, commanded by Capt. Valentine Dyer, which was some weeks ago given over as lost, arrived here on Wednesday, after a most tedious passage from Pensacola, which she left the 2d of October last. Capt. Dyer was kept so long in the Bay of Mexico by contrary winds, that by the 20th of November his water was reduced to six gallons for his whole company; when he happily got a small supply at Cape Antonio in Cuba. The 27th he arrived in sight of the Havanna, and having had a signal of distress out all day, in the evening attempted to enter the harbour, but was peremptorily ordered to put to sea again, on pain of being sunk, and told, that if his ship was in distress, he might come in the next morning, the consequence of which was, his falling to leward, and not getting in till the 29th, when his whole company had been at an allowance of a biskit and a half per man for 15 days. As soon as he entered the harbour, he was ordered to drop anchor close to the Moro, and a boat from the town sent on board, with an officer, to know what was wanted, who, after asking if they had money to pay, took a list of such articles as the packet-boat stood most immediately in need of: The boat then returned, and half way met another, which in the afternoon brought on board the first, and so to the ship, the articles desired, for which most exorbitant prices were demanded and taken, as, for bread, (rendered weighty by wetting with the lees of wine) 16 dollars per hundred; and then Capt. Dyer was ordered to put to sea again immediately.

Capt. Dyer, on his passage saw a large scooner with her top-sail yards standing, and no body on board, ashore upon the Bahama bank, near the Membro Rock; which, we have since learnt, was the Kitty, Balthazar Kip master, of and for New-York from New-Orleans, and went ashore there the 6th past, where the crew and passengers took out some provisions and quitted her, and got to the above rock: The 10th, four of the crew and a passenger went across the gulph in the scooner's boat, leaving the captain with three sailors, and a woman passenger behind, and on the 18th arrived at St. Augustine, whence a scooner was immediately dispatched in quest of the unhappy people left upon the rock.

A letter from St. Augustine dated the 28th, says, governor Grant was then holding a congress with the Creek Indians at Fort Picolata on St. Juan's River; that the Indians had promised to deliver up those who lately murdered the two white people on St. Mary's River, to be put to death, two of which were sons of a headman, called Philchee, who readily gave them up.

Thursday arrived here 260 Irish Protestants, in the ship Earl of Donegal, capt. Duncan Ferguson, from Belfast, to settle in this province upon the bounty.

The brigt. St. Anthony, Thomas Arnold master, from this port for Lisbon, with a cargo of rice, went over this bar last Wednesday morning, and between 3 and 4 o' clock in the afternoon sprung a leak, which gained upon her so fast that by half past seven she was water logged, when the unfortunate master (who was a principal owner) and the crew were obliged to quit her, in the boat, and they happily arrived here on Friday morning.

Wednesday sailed for her station at North-Carolina, his Majesty's ship Martin, commanded by Capt. Thomas Heyward.

The same day died Mrs. Elizabeth Lord, the wife of Mr. Andrew Lord, and sister to Mr. Greenwood, Merchant in London.

Thursday the 26th instant died, at his plantation in St. John's parish, aged 69 years, and a native of this province, John Harleston, Esq;

Last night, Mr. George Thomson, Merchant, to Miss Jane Forster, lately arrived from Scotland.

No variation in the price current since our last.

The Fire-Masters

GIVE NOTICE,

THAT in consequence of the great neglect of many of the inhabitants of Charles-Town, in providing buckets and ladders, keeping their chimnies clean Swept, and of observing many other directions required by the laws now in force, wherein the safety and interest of the whole community are so nearly concerned; they are determined to carry the said laws strictly into execution, and on *Tuesday* the 22d day of *December*, will examine all the houses in Charles-Town.

The great quantities of hemp, oakum, and other dangerous articles which are now often lodged in cellars and other places, requires the strictest care and attention, if through necessity, lights are at any time carried into such cellars, &c.

It is recommended, that all house keepers should provide new ladders every third year, and examine frequently their strength and sufficiency, as they are often found so much decayed and rotten, they are not only rendered useless, but also the lives and limbs of those who mount them in times of fire, are greatly endangered.

It is further recommended, and much wished for, that every family would hang out at least one light in a lanthorn, in times of fire, whereby those who go to the assistance of the unhappy sufferers will not only see their way better in removing goods to a place of safety, but it also may be the means of preventing thefts. And all house keepers are required and enjoined to be more ready in delivering out their buckets in times of fire.

} *Fire-Masters.*

And in order that no one may plead ignorance of the laws referred to, the following abstracts are published for their information, which the fire-masters request all persons concerned strictly to observe.

It is enacted, that no person or persons whatsoever in Charles-Town, shall be permitted to keep any straw or hay in his, her, or their dwelling house, or kitchen, or out house, that is joining to his, her, or their dwelling house, on the penalty of the forfeiture of ten pounds for every such offence,

It is enacted, that every owner or tenant of every dwelling house in Charles-Town, shall provide a leathern bucket of six quarts at least, for every fire-hearth in such dwelling house, one fourth part of the whole to be sent to the manager of the fire-engines; they are also to provide one ladder, of a convenient length for each dwelling house: Which buckets and ladders are to be always ready in case of fire, on pain of forfeiting the sum of ten pounds; also a penalty of thirty shillings for every bucket wanting, or refused in time of fire, and if any buckets shall be lent at such time, the fire-masters are to supply the owners with others in the room of them.

The charge of providing buckets and ladders is to borne and paid by the landlords and owners of houses; but as the said charges may be often paid by the tenant in possession, who is made liable in case of neglect, it is lawful for such tenant, to deduct so much out of his rent as shall be from time to time expended in providing buckets and ladders.

It shall be lawful for the fire-masters to enter into the houses, out-houses, stables and yards, of every owner or tenant, to inquire if they are provided with buckets and ladders; and also to view, search and examine, if any quantity of hay, straw, pitch, tar, rosin, turpentine, oil, tallow, sulphurous or combustible matters are lodged in any place within the same, which may be in danger of taking fire; and if they find there is danger, it is lawful for them after having admonished the owner of such house or houses, to remove such combustible matter (in case of refusing or neglecting to remove the same) at the charge of the owner. All persons who shall suffer their chimnies to take fire, and blaze out at the top, shall forfeit the sum of five pounds.

Upon any alarm in the night time, every inhabitant is to repair to the place where the fire is, with his arms, under the penalty of forty shillings, and shall lodge them in such places, near the fire, as shall be appointed by the fire masters, and the commander of the watch is to order a party of the watch to guard the same. All goods and effects removed, are directed to be carried to the place where the arms are directed to be lodged and guarded. The constables are to appear with their staves, and assist in guarding the said goods and effects, till removed to some other place of safety, under the penalty of five pounds. Any person that embezzles any goods or effects, are to be pilloried, have their ears cut off, and forfeit four times the value thereof.

The fire-masters are empowered to command any person or persons whatever, to aid and assist in pulling down houses or buildings for extinguishing of fires, to the utmost of their strength, power and ability; and in case of refusal, if a white person he shall forfeit five pounds, and if a slave, he shall be publicly whipped. All persons who shall do or execute any thing in obedience to the fire masters, are indemnified against all persons whatsoever.

Remarkable or considerable services, in preventing or extinguishing fires, are to be rewarded by the fire masters; and in case any person shall be wounded, maimed, or disabled, in endeavouring to prevent or extinguish fire, a reasonable allowance, maintenance, or provision will be made for such persons.

The masters or managers of the engines, may command any person or persons whatsoever, that shall be nearest at hand, when any fire breaks out to aid and assist in conveying the engine to the place where the fire shall be. A white person refusing shall forfeit forty shillings and a slave to be publickly whipped. A reward of forty shilling to every white person, and twenty shillings to every slave, to be paid to those who carry the first engine to the place where the fire breaks out.
